

# Connect+™ | SendPro™ P Series Power Distribution Kit

The multi-branch AC line cord kit is for use with SendPro™ P Series components.

The following are the only devices allowed to be connected to the multi-branch AC line cord kit:

- SendPro™ P Series
- Display AC adapter (for 15" display only)
- Power Stacker AC adapter

**⚠ Do not connect to other devices such as laser printers.**

## Important Safety and Compliance Information for Your Mailing System

**Follow the normal safety precautions for all office equipment.**

- Use the power cord supplied with the system and plug it into a properly grounded wall outlet located near the system and easily accessible. Failure to properly ground the system can result in severe personal injury and/or fire.
- The power cord wall plug is the primary means of disconnecting the system from the AC supply.
- Do not use an adapter plug on the line cord or wall outlet.
- Do not remove the ground pin from the line cord.
- Avoid using wall outlets that are controlled by a wall switch, or shared with other equipment.
- Do not route the power cord over sharp edges or trap between furniture.
- Ensure there is no strain on the power cord where it becomes jammed between the equipment, walls or furniture.
- Be certain the area in front of the wall receptacle into which the system is plugged is free of obstruction.
- Your MSD2 15" monitor and MSPS stacker have specific AC adapters to power them. Do not use third-party AC adapters which may damage the monitor and the stacker.

NOTE: Always follow the specific occupational safety and health standards for your workplace.
